Dear Class of 2000,

Congratulations for being the first class to graduate Plainfield High School in the new millennium. We are proud of the record you have amassed as students and urge you to build on this foundation as you anticipate the challenges ahead.

You will spend your adult years in a period of rapid change. Major advancements in technology, medicine and bio-genetics will open up new careers and fields of knowledge that do not exist at present. Changing demographics of Plainfield, New Jersey, the United States, and the World will result in increased contact with people of many different cultures and ethnic origins.

Values and beliefs that have been fundamental to living in the previous century will be examined and potentially modified to changing social conditions. The early years of the 21st century are the time for you to prepare for the moral and economic changes you will experience throughout adulthood.

High school graduation will not be enough education for you to take care of yourself and family in our increasingly competitive environment. It is important that you commit to be a life long learner to manage the changes that will undoubtedly impact the quality of life you and your family will experience. Life long involvement as a learner might be a bit much to handle as a member of the PHS Class of 2000 at this time. However, be assured that the decision you make about your education will determine your future well being.

The kind of person you decide to become will be as important as the decisions you make about continuing education. The challenges ahead require that your moral compass be grounded by moral and ethical considerations supportive of high standards of personal and social responsibility. How we treat each other, our environment and serve broader social concerns will significantly influence future generations. Racism, classism, sexism and the issues that divide rather than unite people will depend upon how you and members of the Class of 2000 act on values of fairness, justice and equality.

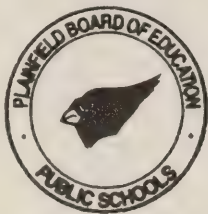

The members of Class of 2000 are challenged to become masters of change and to incorporate the skills of change agency into your daily living. Your survival and the betterment of society will depend on how well prepared you are to be productive and contributors in the 21st century.

Your decisions will determine whether you become the "sharecroppers" or "shareholders" in the first century of the new millennium. Accept the challenge of sharing the responsibility by investing in your development and the improvement of the world around you. Vision, faith, and effort are fundamental to any effort to prepare for adult life in the early years of the 21st century. Keep the faith!

Sincerely,

Larry Leverett, Ed.D.

SENIOR MESSAGE CLASS OF 2000

Congratulations are extended to the Plainfield High School Class of 2000: the long awaited and most anticipated class of the millennium. I am privileged to have served as your principal during this important segment of your educational development. The privilege exists because each of you have contributed to the improvements of Plainfield High School and you have earned the right to go forth as contributing members of the universal community. With similar dedication and effective effort you can emerge and take your earned place in history.

Plainfield High School is without question a better school as a result of your attendance, interactions, influence and membership. Thank you for your willingness to learn from us. We in the process have certainly learned from you. You are the class that was "SWAS-tized", "Blocked Scheduled", "I.D." and participated in other school reform efforts. Thank you for your dedicated support.

On the behalf of the Plainfield High School Faculty and Staff, I commend you on your graduation and encourage you to reach for the highest heights. I also remind you to be comforted in the fact that everything will unfold just as it is supposed to, if you stay the course and live in peach and harmony.

Respectfully,

To The Class of 2000

The Class of 2000 has been an inspirational experience for us, while also enhancing our personal growth. The preparation for, and the implementation of a Class of this magnitude, and its activities, was often loaded with challenges. Though difficult at times, we are glad to have had this momentous experience. With cooperation, flexibility, and the realization of the COMMON GOAL, we superseded individual conflicts and egos.

The members of the Class of 2000 are to be congratulated for your accomplishments as a whole and individually. Hard work, perseverance, and a desire to achieve were the vehicles you chose to help realize your success.

We salute and honor your parents. You are truly the fruits of their labor. Always remember your roots, and don't forget the bridges that brought you over. Those who sacrificed for you and your needs should always be in the forefront of your thoughts. As you climb the ladder of success, reach back and show someone else the way. Each one, teach one. Finally, thank God for every achievement, He makes all things possible.

God's Minute

I have only just a minute
only sixty seconds in it.
Forced upon me, can't refuse it
Didn't seek it, didn't choose it.
but it's up to me to use it
I must suffer if I lose it.
Give account if I abuse it.
Just a tiny little minute
but eternity is in it.
